The quality of time at the birth of a human being in November 2023

Birth planning

The event of the month October 2023 is the major attack by the Palestinian Hamas on Israel. Let's take a look at the time quality of October 7, 2023 (Magazine 2023-10), we can see that overall a disharmony of Moon, Venus, Saturn and Pluto begins, accompanied by a relatively high energy.

Is this a time to start a war?

This disharmony is only somewhat mitigated by a harmonious Uranus and Neptune. In astrological experience, the frequencies of Uranus always stand for spontaneity, which is what this attack was. The harmonious Neptune here obviously stands for the altruistic goal of Hamas, the "liberation" of Palestine as a whole. The disharmonious oscillators (planets) reduce the probability of Hamas succeeding in this endeavor, apart from the actual military conditions.

The Israeli military's ground offensive also began in an incipient strong disharmony. Even if it is successful, the likelihood of strong unrest (disharmony) has risen sharply, and not only in the Arab world.

If planetary constellations can influence a child's intelligence at birth, these findings can also be applied to birth planning. We start with this in this issue.

Your Wave Astrology Team

Harmony and disharmony in December 2023

Let's look at the harmony and disharmony in December 2023:

Fig. 1: The quality of time in December 2023; full moon is on December 27, new moon on December 13

Apart from a few days, December is quite harmonious. Try to use this quality time for a harmonious time with your family and friends. The probability of success is higher. December is also a good time to start peace negotiations in the war zones of our planet. Will they be used?

Fig. 2 Christmas; from a quartet of seasons;

Please always pay attention to the energy of the individual planets. The general time quality, as calculated in the curves, also applies to the people around you.

Look at the frame of the "Astrological Basic Principles" below. If you need **<ability to do work; drive; energy; drive; energy; will; courage to start again;>** then look at the curve of Mars, in which period it is harmonious. The curve should be above the midline.

Also take a look at the curves of the other planets, they may inhibit or promote your activities.

If you do not want **<resistance; inhibition; stagnation;>** in your undertakings, then look at the curves of Saturn, it should not lie below the line in the disharmonious area. You can find the energy

of the basic principles in the figure below.

Astrological Primordial Principles

Energy (astrologically assigned to **Mars**)
 Ability to do work; drive; energetics; momentum; aggression; Energy; Will; Courage to start anew; Anger, spontaneity, strife;

Harmony (astrologically assigned to **Venus**)
 pleasant agreement of the parts of a whole; stability; beauty; love; aesthetics; Convenience; slovenliness; overindulgence;

Information (astrologically assigned to **Mercury**).
 Exchange of messages in coupled systems; communication; thinking; inquisitiveness; language; lack of concentration; superficiality;

Emotion (astrologically assigned to the **Moon**)
 Emotional movement; excitement; unconscious; longing; moodiness; depressed mood;

Egocentrism (astrologically assigned to the **Sun**)
 Center forming; central force; centralism; individualization; strength; ego force; arrogance; egoism; pride; vanity;

Transformation (astrologically assigned to the asteroid belt and alternatively to **Pluto**)
 Die and become; transformation; regeneration; upheavals; letting go; Tensions; tearing energy; destructivity;

Growth (astrologically assigned to **Jupiter**).
 Increase; expansion; multiplication; seeking dominion; Development; expansion; immoderation; loss of control;

Concentration (astrologically assigned to **Saturn**)
 gathering; crowding together; concentrating; solidifying; striving for stable order; Resistance; inhibition; stagnation;

Spontaneity (astrologically assigned to **Uranus**)
 sudden change; flash of thought; dissolution of ossified structures; originality; transformation of all values; eccentricity; chaos;

Reconciliation (astrologically assigned to **Neptune**).
 Homogenization; reconciliation; selflessness; altruism; Inspiration; deception; disappointment; illusions; addictions;

ATTENTION: These are astrological empirical values which have not yet (to our knowledge) been examined according to scientific criteria. Therefore, they can only be used as a guide for the evaluation of harmony (red) and disharmony (blue) of the planetary curves.

Fig. 3: The energy of the quality of time in December 2023

Biographical rhythms from the 60nd to the 72th year

(continued) The curve of Uranus indicates that new freedoms can be found, that favorable life changes can occur again.

Questions arise: What do I still want to experience, what do I still want to learn? Can I catch up on something I missed? Are there any topics from my youth that I could pick up on? Who have I become? Have I been able to develop? What meaning does my life still have? Are there still tasks for me?

This "catching up" has a different character to the activities that were age-appropriate. Some things cannot be made up for. If you experience a trip to a romantic place of longing that you would have liked to visit in the second or third phase of your life in your mid-60s, the quality of the trip is of course completely different and can lead to disappointment if you lack an awareness of reality.

Fig. 4 Biographical rhythms from 60 to 72

It could be different with activities. If you wanted to learn an instrument or artistic training when you were younger, you can still catch up. The same applies to intellectual development. In many university towns, a Studium Generale has been offered for many years, which is also well attended by older people. Quite a few still complete "senior studies" and achieve a degree and some even an academic degree. Some intensify a hobby or finally learn the foreign language they never had time for. Others travel to places of longing or to the places of their childhood and youth. Many concentrate on re-establishing or maintaining friendly contacts that have been neglected due to the demands of life.

People who do not live in dependent employment relationships can continue to work for much longer, provided their health permits. This includes freelancers and the self-employed in the broadest sense, scientists, therapists, artists, etc. There are artists and painters who believe that they have only really reached their full potential after the age of 70. It makes sense to continue their previous activity if it corresponds to their vocation in life.

The disharmonious curve of Neptune from 62 to 69 can also be an indication of insecurity. Essential issues arise again. If you can no longer define yourself in your social environment through your usual activities, for example your working life, essential aspects of your personality disappear. These are people who, whether asked or not, repeatedly talk about their past successes at work. As this can lead to rejection, it would be wiser not to tell the same stories to the same people over and over again.

How should life go on? In view of the significantly shorter lifespan in the future compared to the past, questions about the philosophy of life, spirituality and religion are once again coming to the fore. Fear of loss, old age and death can set in.

As life goes on, the question of how life can succeed, what constitutes life satisfaction and happiness in old age, becomes acute again.

*"Who am I when I am
nothing?"
Ingrid Riedel*

Uranus, the primal principle of freedom and independence, is harmonious again from 67 and indicates that an adjustment to the new phase of life can be successful. You can face the years ahead with a new sense of freedom and personal responsibility, provided that the body remains largely viable as an instrument of the soul.

Neptune is harmonious again from around 69 and could be a help in resolving arguments and misunderstandings in relationships. Difficulties in some contacts can be taken up again in a conciliatory manner from the point of view of age.

The disharmony of the principle of transformation (Pluto) also indicates that a change in personal power relations is needed so that life does not become rigid. The personal value system should change so that the rest of life can succeed. New priorities are possible and necessary. The harmonies from around the age of 67 are an indication of this.

(to be continued)

The quality of time at the birth of a person in December 2023

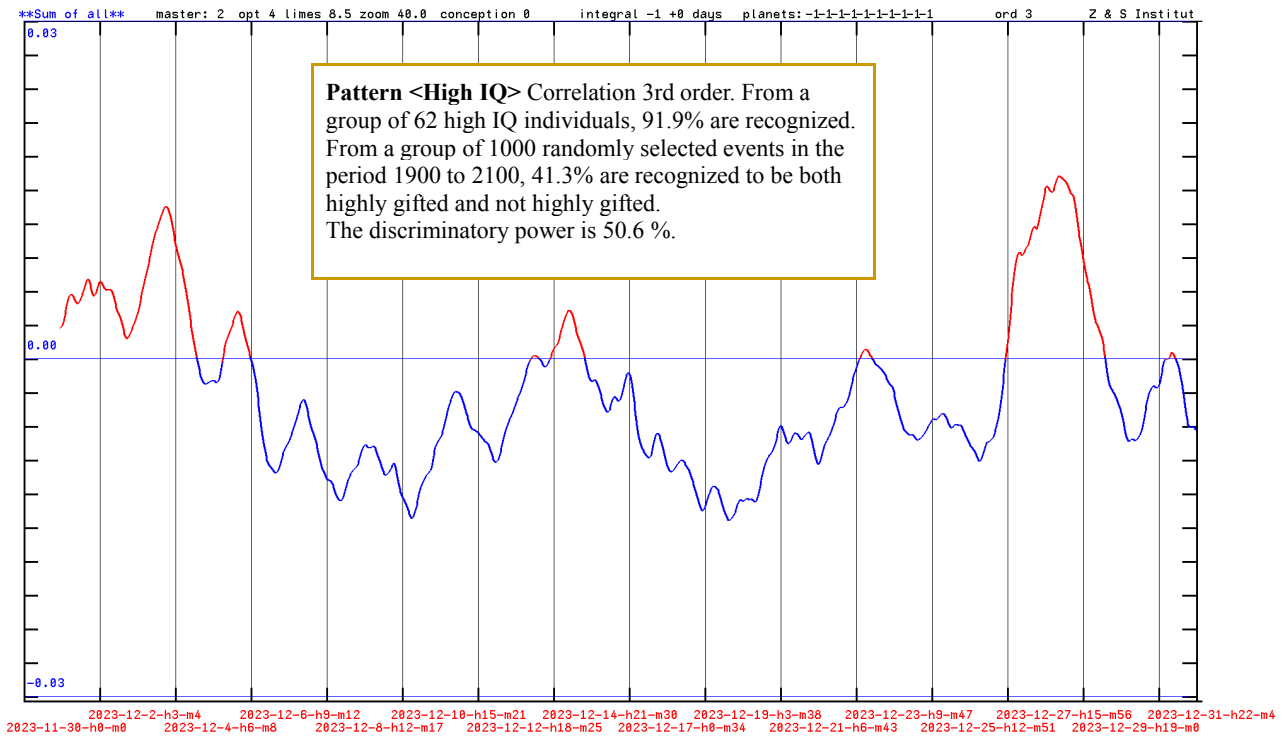

Fig. 5: The probability of a higher IQ at birth in December 2023. If the curve is above the center line, then this time falls into the "High IQ" pattern for gifted people.

Important: During the entire period, children are born with a high and a low intelligence quotient. The curves only show the changes in probability.

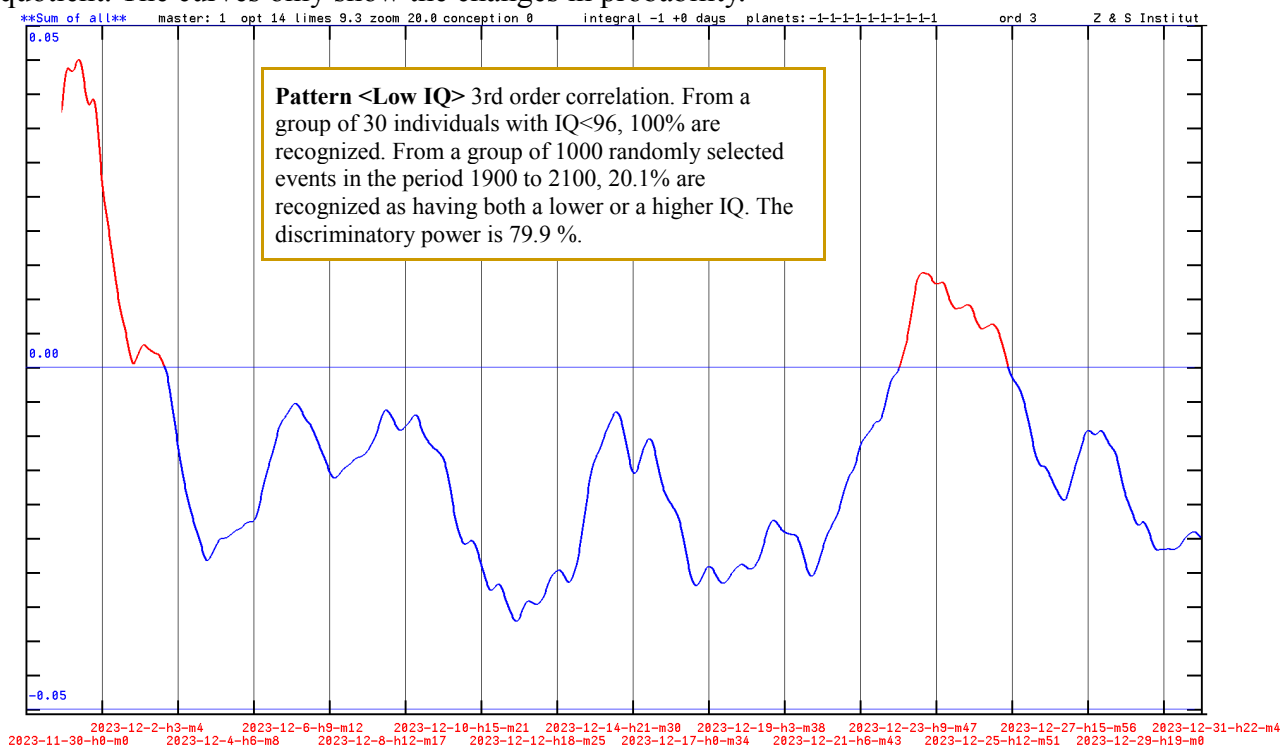

Fig. 6: The probability of a low IQ at birth in December 2023. If the curve is above the center line, then this time falls within the pattern for a low IQ.

Can these curves also be used for the start (birth) of projects?

There are no studies on this yet. But it could be a hypothesis.

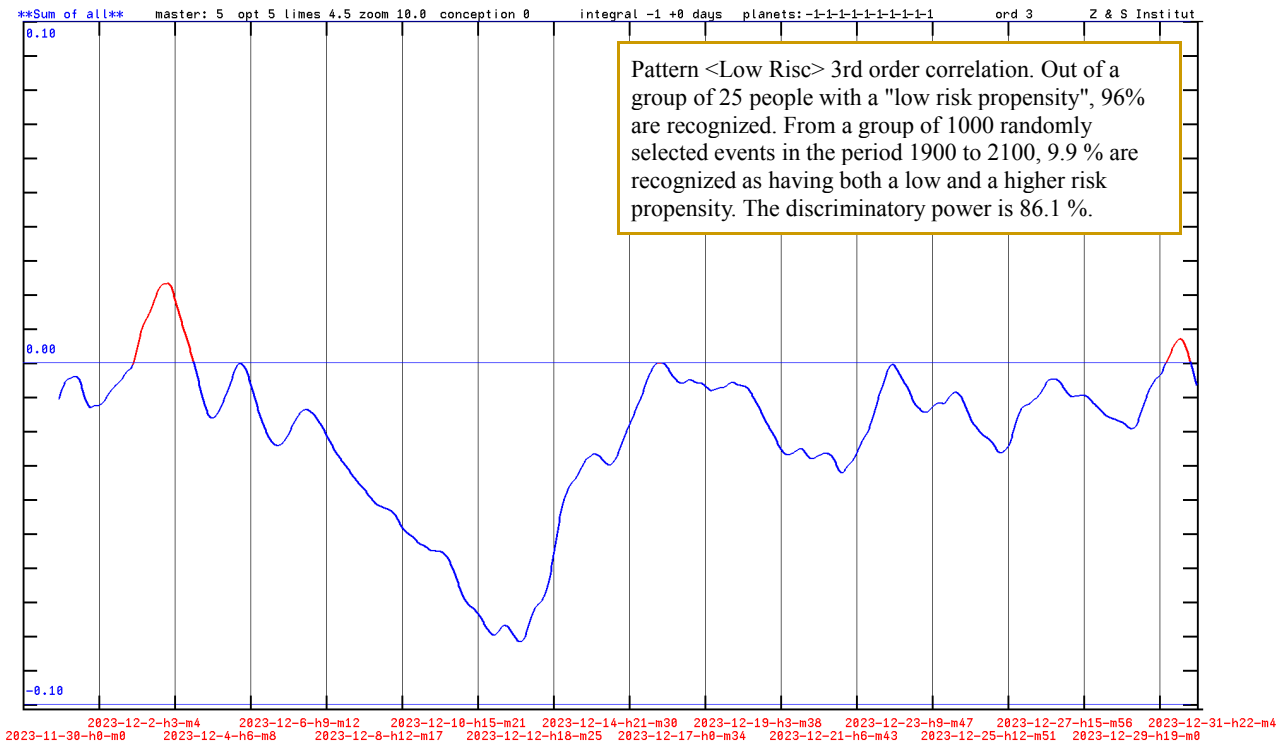

Fig. 7: The probability for the characteristic "low risk appetite/strong need for harmony" when a person is born in December 2023. If the curve is above the center line, then this time falls into the pattern for a "low risk appetite/strong need for harmony"

Even these few statistically verified studies indicate that there is still a large field for further research. To this end, groups of people with the same character traits must be examined. If such groups show significant deviations from the continuum (average), patterns can be created for forecasting.

To interested readers: If you know of any such groups of people with special, statistically verified character traits, you can send them to us for significance testing. If it is a characteristic that deviates from the average, we can create a sample.

Artificial intelligence in the forecasting of earthquakes in December 2023

The fluctuating planetary gravitational field influences not only the activities of the sun, but also those on earth. A special correlation function describes the harmonics of these fluctuations. Groups of earthquakes form oscillation patterns that differ significantly from randomly selected control groups. These patterns are suitable as an element of an AI for assessing the probability of earthquakes.

Pattern A

Group of the 41 strongest earthquakes of the last century (1900-2000)

The pattern used here finds 100% of the list of the 41 strongest earthquakes. However, 25.8 % of the 1000 events are also identified as earthquakes from a randomly selected list. The discriminatory power (difference) to the continuum is 74.2 .

Fig. 8: Curve of pattern A for the period 2023-12. Above the center line, the probability of a pattern A earthquake is greater.

Pattern B

A list of 513 earthquakes (Earthquakes of magnitude 6.5 or greater or ones that caused fatalities, injuries or substantial damage. BRK--Berkeley. PAS--Pasadena.) in the period 1997-01-05 to 2002-06-18].

82 % of the group of 513 earthquakes were recognized as earthquakes. From a randomly selected comparison group of 1000 events, 27% were identified as earthquakes. The comparison group of 1000 events was randomly selected in a period from 1900 to 2100.

Fig. 9: Curve of pattern B. 513 earthquakes for the period 2023-12. Above the center line, the probability of a pattern A earthquake is greater.

Important: This does not rule out major earthquakes.

Planning the birth date of a baby in the month of December

Planning the birth of a child depends on many circumstances and conditions. The social circumstances of the partners, the time available and also the physical possibilities are significant influencing factors. Planning is easier if only artificial insemination is possible. The patterns currently being developed from the harmonics of the planetary oscillators (major planets) make it possible to specify time windows in which the change in the probability of higher (or lower) intelligence or lower risk behavior of the newborn can be seen. The time windows are calculated for a month in which the day of conception (conceptio) takes place. The duration of a pregnancy from the day of conception is given as 268 days. This is a statistical mean value that has a range of fluctuation.

The following curves show the time quality for the various patterns for 268 days later than December 2023, i.e. approx. 8 months + 24 days. These are the birth months of August and September of 2024.

Pattern <High IQ>

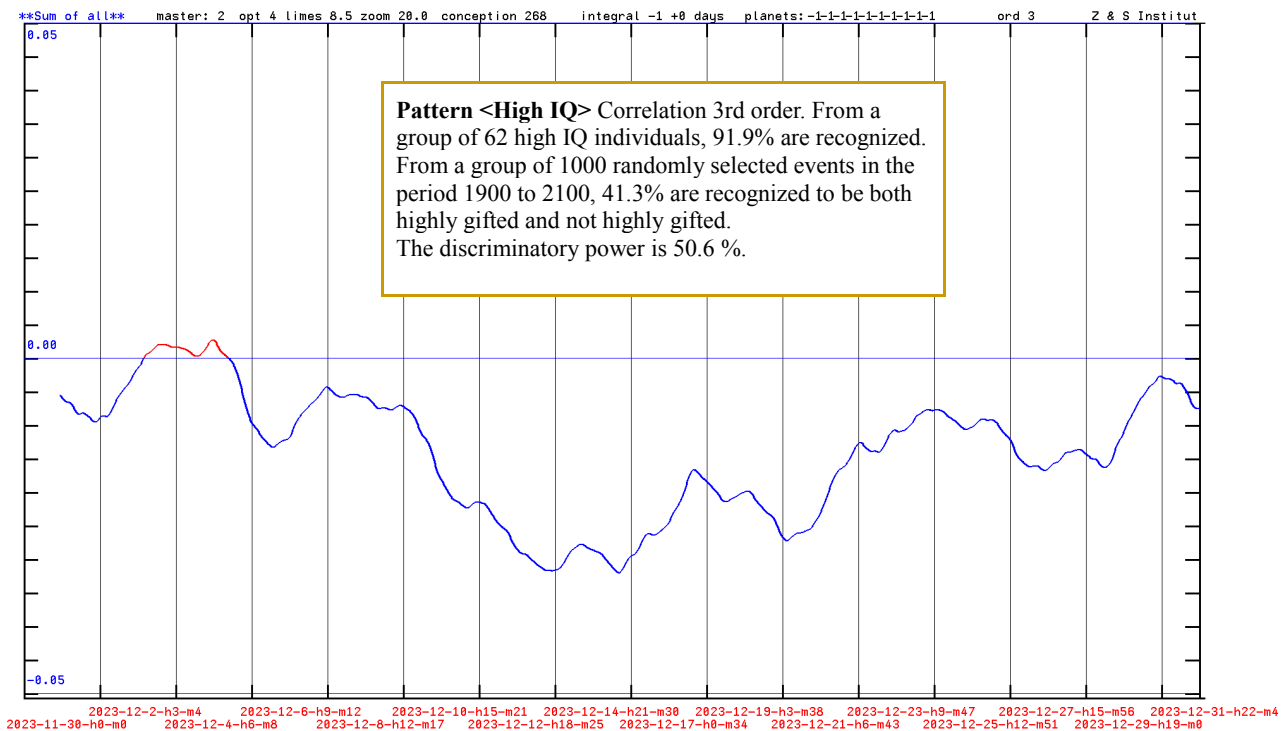

Fig. 10: The probability of a higher IQ at conception of an intended pregnancy in December 2023. If the curve is above the center line (red part of the curve), then this time falls into the "High IQ" pattern for high achievers. The birth takes place in August and September 2024 (8 months and 24 days later than December 2023).

Pattern <Low IQ>

Fig. 11: The probability of a lower IQ at conception of an intended pregnancy in December 2023. If the curve is above the center line (red part of the curve), then this time falls into the "Low IQ" pattern. The birth is in August and September of 2024 (8 months and 24 days later than December 2023).

Pattern <Low Risc>

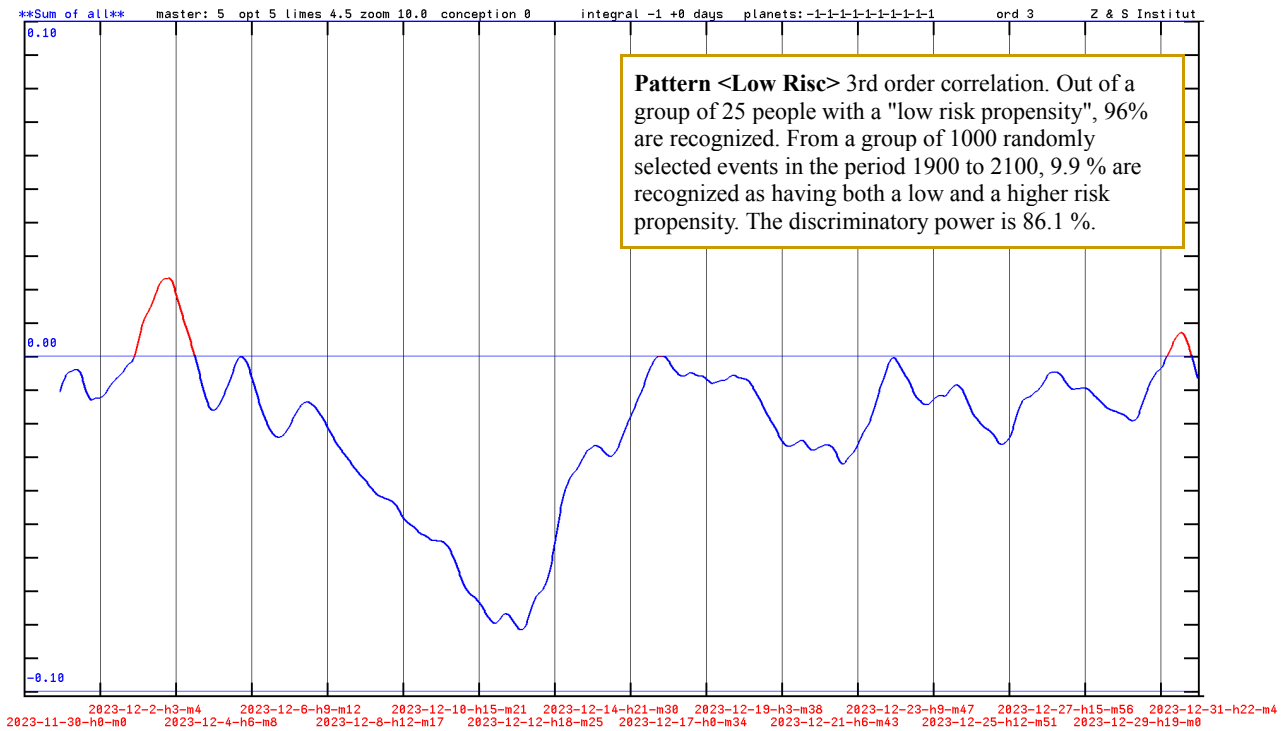

Fig. 12: The probability of a lower risk of conceiving an intended pregnancy in December 2023. If the curve is above the center line (red part of the curve), then this time falls into the "low risk" pattern. The birth takes place in August and September 2024 (8 months and 24 days later than December 2023).

Please note: The changes in the probability for a higher IQ, for a lower IQ and for a lower risk probability of the child are relative to the genetic disposition and are no guarantee for a really high intelligence or a low risk propensity of a child.

Fluctuations of the planetary gravitational field and nonlinear interactions with matter.

From the preface to the book

The hypothesis presented in this book arose by chance. My experience in creating a mathematical model for calculating partially-coherent light waves through optical systems, applied to the planetary system, led to an algorithm that can be interpreted as a nonlinear interaction of microgravity with matter. This does not describe causalities but only correlations of a probabilistic nature. A correlation function is developed that can describe changes in the probability of stable and unstable states in matter.

With the found correlation function the triggering of earthquakes was investigated as the first.

...

Previous studies related to the triggering of earthquakes do not take into account the interactions of the gravitation of the planets.

The studies of groups of earthquakes showed significant deviations from the control groups and confirmed the assumption that the harmonics of the planetary gravitational field have an influence on the triggering of earthquakes. Surprisingly, it was not only the harmonics of the Sun and Moon. These results suggested that it might be possible to use these harmonics to predict earthquakes as well, which was also confirmed that the correlation function found could be used to predict changes in the probability of earthquakes.

It was further suggested that the fluctuations of the planetary gravitational field could also have a stabilizing or destabilizing influence on other processes of evolution on Earth. The correlation function was applied to the structure formation of human intelligence and the stability of mental processes. Again, significant results were found in the statistical studies.

The results so far suggest that the correlation function may be suitable for describing influences on further processes of human evolution. The method can also be applied as an element of an artificial intelligence, ...

Michael E. Nitsche

In this book, the structure formation of human intelligence, the stability of mental processes, the developmental psychology of humans, social events and crises, but also the triggering of earthquakes are investigated on the basis of the planetary gravitational field. The fluctuating planetary gravitational field forms frequency patterns that can be used for predictions in an artificial intelligence.

ATLANTIS - 3045

An age lasting a thousand years comes to an end. It will later be called the Dark or Leaden Age. In secret, underground, in the caves and catacombs, something has developed that feels the power to beauty, harmony and eternal youth. Perhaps this will develop into an Atlantean, a Golden Age. Do we still speak of man, mankind even? No! It has reached the end of its evolution. Greed, laziness and fear, these driving forces of human civilization have reached the end point. Stupidly naive moral conceptions of a human herd and extremely decadent ways of life of an elite left only one exit open: Suicide - apocalypse. The brutal competition of the male aggression for the offspring and the female greed for the greatest male aggression for the own offspring, originating from the animal kingdom, could not be changed, for its ideologies and religions were insurmountable obstacles. Parts of mankind survived through artificial wombs and virgin birth. The male part no longer existed. A mostly peaceful world in harmony with nature emerged, a decaying world in which what was once technology became increasingly rare. A small pool of male children was raised for safety in a secluded reservation kept strictly secret from the rest of the population. With the onset of puberty, these specimens were transformed into girls. But the male element had not yet been completely defeated, when it happened that something succeeded which nobody had thought possible. An ancient dream of mankind was about to become reality. The dream of eternal youth. In a research institute that was working on the adaptation and optimization of virginity production, there existed a small research group that was allowed to conduct genetic experiments on the remaining male gene pool. There they succeeded in designing a male specimen of a new human being, with the potential of eternal life. But these specimens of a new man would allow very little differentiation; they were like identical twins and loved each other as such. Would it become a blessing or a curse to humanity? It was decided to destroy this small male gene pool immediately. But time had its own plans. On an island in the Atlantic Ocean, something existed that was created before the apocalypse and was supposed to allow high technology to survive. It survived without humans, although it was made for them. After it had a thousand years to find a way, it began to stir. The world was changing and had its own goals, beyond humans.

Guest posts

Do you have individuals, groups of individuals, special events or groups of events?

We will review you and, if suitable, conduct research and publish the results with you in our journal or in an international peer reviewed journal.

Your own research?

If you intend to conduct your own research independently of us, you can purchase the astro-basis program (manual here: <http://www.planetare-korrelation.eu/program-astro-2.htm>). With this program all research results were obtained, which were published in the international journals

Earth & Environmental Science Research & Reviews;

International Journal of Clinical & Medical Informatics;

Journal of Robotics and Automation Research;

Journal of High Energy Physics, Gravitation and Cosmology;

were published.

For further requirements you can also purchase the astro-extended program (manual here: <http://www.planetare-korrelation.eu/program-astro-extended.htm>). This program can among other things also carry out resonance examinations (transits) statistically secured.

Contact us, we will advise you!

Contract research for your personal questions

Do you need quality time for personal appointments, births, or groups of people?

We calculate the time quality matrices for you with statistical tests for significance.

For one appointment we will charge you 80,-€, for groups up to 30 events or persons 120,-€.

Sponsoring

Would you like to support our research financially?

Please get in touch with us. Your support can also refer to individual studies, for example. An internationally published research article can then include the addendum: "This research was conducted by *Your name or company*.... sponsored. In addition, your name or company can - if you wish - be published on our homepage with a link.
