Forecasting of earthquakes in June 2024

The quality of time at the birth of a human being in June 2024

Birth planning

*The future is created anew every moment we approach it. People develop scenarios for the future. The further we venture to look into the future, the more scenarios there are and the less likely each individual scenario becomes. Nature knows of no process that leads to a certain event at a defined point in the future.*

*Social scenarios, if they lie in the future, are increasingly less probable the further they lie in the distant future. Probability refers to both the timing and the scope of an event in the future.*

*Scientific events in the future are often more probable than social events if they follow a mathematical model. The movement of the planets and the formation of certain constellations in the future are possibly the events that can be predicted with the greatest probability. This applies to both the future and the past.*

*The basis of evolution in our planetary system are the oscillators, the large planets, which have been stable for billions of years. They orbit around the sun and shape the very foundation of our development. Are we making use of this as humanity?*

m.n

# Harmony and disharmony in June 2024

Let's look at the harmony and disharmony in June 2024:

Fig. 1: The quality of time in June 2024; full moon is on June 22, new moon on June 6.

The month of June begins strongly harmonious with harmonies of Mercury, Neptune and Pluto. From June 6 it becomes more disharmonious until the 22nd of the month. June ends in weak harmony. Note the strong disharmonies on June 17 and 18. Venus, Mars and Mercury favor arguments in a partnership and even among friends.

Important undertakings should be completed by June 5.

Fig. 2 "June"; from a quartet of seasons;

Look at the frame of the "Astrological Basic Principles" below. If you need **<ability to do work; drive; energy; drive; energy; will; courage to start again;>** then look at the curve of Mars, in which period it is harmonious. The curve should be above the midline.

Also take a look at the curves of the other planets, they June inhibit or promote your activities. If you do not want **<resistance; inhibition; stagnation;>** in your undertakings, then look at the curves of Saturn, it should not lie below the line in the disharmonious area. You can find the energy of the basic principles in the figure below.

### Astrological Primordial Principles

**Energy** (astrologically assigned to **Mars**)

Ability to do work; drive; energetics; momentum; aggression; Energy; Will; Courage to start anew; Anger, spontaneity, strife;

**Harmony** (astrologically assigned to **Venus**)

pleasant agreement of the parts of a whole; stability; beauty; love; aesthetics; Convenience; slovenliness; overindulgence;

**Information** (astrologically assigned to **Mercury**).

Exchange of messages in coupled systems; communication; thinking; inquisitiveness; language; lack of concentration; superficiality;

**Emotion** (astrologically assigned to the **Moon**)

Emotional movement; excitement; unconscious; longing; moodiness; depressed mood;

**Egocentrism** (astrologically assigned to the **Sun**)

Center forming; central force; centralism; individualization; strength; ego force; arrogance; egoism; pride; vanity;

**Transformation** (astrologically assigned to the asteroid belt and alternatively to **Pluto**)

Die and become; transformation; regeneration; upheavals; letting go; Tensions; tearing energy; destructivity;

**Growth** (astrologically assigned to **Jupiter**).

Increase; expansion; multiplication; seeking dominion; Development; expansion; immoderation; loss of control;

**Concentration** (astrologically assigned to **Saturn**)

gathering; crowding together; concentrating; solidifying; striving for stable order; Resistance; inhibition; stagnation;

**Spontaneity** (astrologically assigned to **Uranus**)

sudden change; flash of thought; dissolution of ossified structures; originality; transformation of all values; eccentricity; chaos;

**Reconciliation** (astrologically assigned to **Neptune**).

Homogenization; reconciliation; selflessness; altruism; Inspiration; deception; disappointment; illusions; addictions;

**ATTENTION:** These are astrological empirical values which have not yet (to our knowledge) been examined according to scientific criteria. Therefore, they can only be used as a guide for the evaluation of harmony (red) and disharmony (blue) of the planetary curves.

Fig. 3: The energy of the quality of time in June 2024

## Biographical rhythms from the 72nd to the 84th year

Picture from mitjourney, like Caspar David Friedrich

*(Continuation from 2024-05)*

The principle of Saturn is a help. Before the discovery of Uranus, Saturn was the ruler of Aquarius. He is now often regarded as the "night ruler" in the sign of Aquarius. According to my observations of people over the age of 70, those who have a structure, a rhythm in their daily lives and who also fulfill the duties they have chosen for themselves do well in life. Various age studies have also come to this conclusion.

Fig. 4 Biographical rhythms from 72 to 84

The principle of Saturn is a help. Before the discovery of Uranus, Saturn was the ruler of Aquarius. He is now often regarded as the "night ruler" in the sign of Aquarius. According to my observations of people over the age of 70, those who have a structure, a rhythm in their daily lives and who also fulfill the duties they have chosen for themselves do well in life. Various age studies have also come to this conclusion.

Freedom and responsibility must once again be seized by oneself. At this age in particular, it is up to the person themselves to decide what meaning they give to their later years. Those who do not consciously shape the "sunny time", the time of individual freedom, flatten out and lose themselves in everyday life. The sun then darkens prematurely.

From the mid-70s, Neptune's curve is disharmonious. Those who want to make more radical life changes should think carefully in order to make well-founded decisions and not succumb to illusions. Attention should also be paid to material security in the coming years.

Reconciliation with one's own life, with relatives, acquaintances and friends would make sense now at the latest, if it has not already taken place. Some things in the biography are transformed, embellished in order to be able to bear them better. Guilt and failure could otherwise be too much of a burden. If this is the case, therapeutic help in the form of life review therapy would be helpful. Otherwise the fear of dying and what might come afterwards could become great. For those who have serious physical burdens, the longing for death can become stronger. Many people at this age are once again cherishing the memory of the deceased. Early childhood is usually very present.

People like to celebrate their 80th birthday on a grand scale, provided their health allows it. It usually becomes apparent that many companions are already missing, they have died or are so ill that they can no longer take part in a celebration, or they fade into oblivion. From the age of 80, Saturn, Uranus and Neptune are disharmonious. This may be because possible mistakes, failures or guilt weigh more heavily on the soul. Failure and loss may be a big taboo subject in our society, but they are part of life. The thought that there will always be an unfulfilled remainder could be helpful.

The living environment is getting smaller. The storms of the world are finally over. The world belongs to the younger generation.

At the age of 84, the major planet Uranus has completed its orbit and is once again in the natal position. This rhythm of individualization, of personal freedom, is the greatest rhythm of a planet that can return to the natal position in the horoscope. The personality is rounded, should it have reached old age.

*END*

### The quality of time at the birth of a person in June 2024

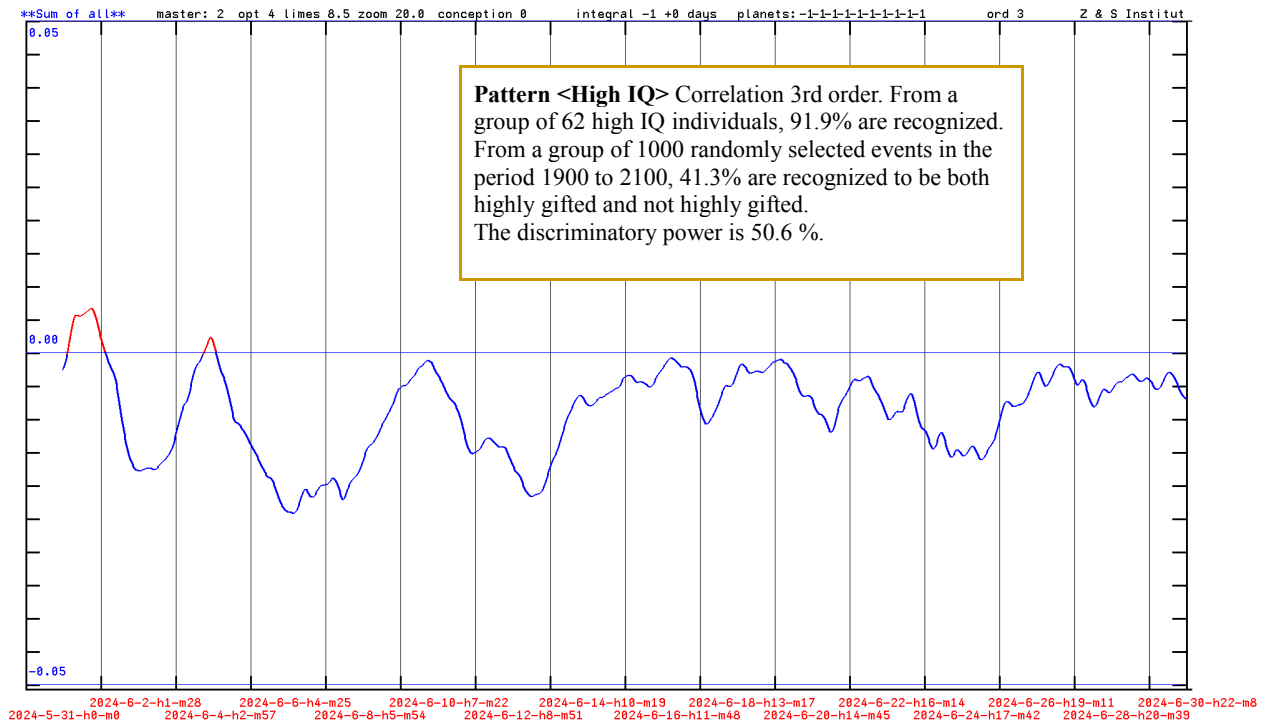

Fig. 5: The probability of a higher IQ at birth in June 2024. If the curve is above the center line, then this time falls into the "High IQ" pattern for gifted people.

**Important:** During the entire period, children are born with a high and a low intelligence quotient. The curves only show the changes in probability.

Fig. 6: The probability of a low IQ at birth in June 2024. If the curve is above the center line, then this time falls within the pattern for a low IQ.

Can these curves also be used for the start (birth) of projects?  
There are no studies on this yet. But it could be a hypothesis.

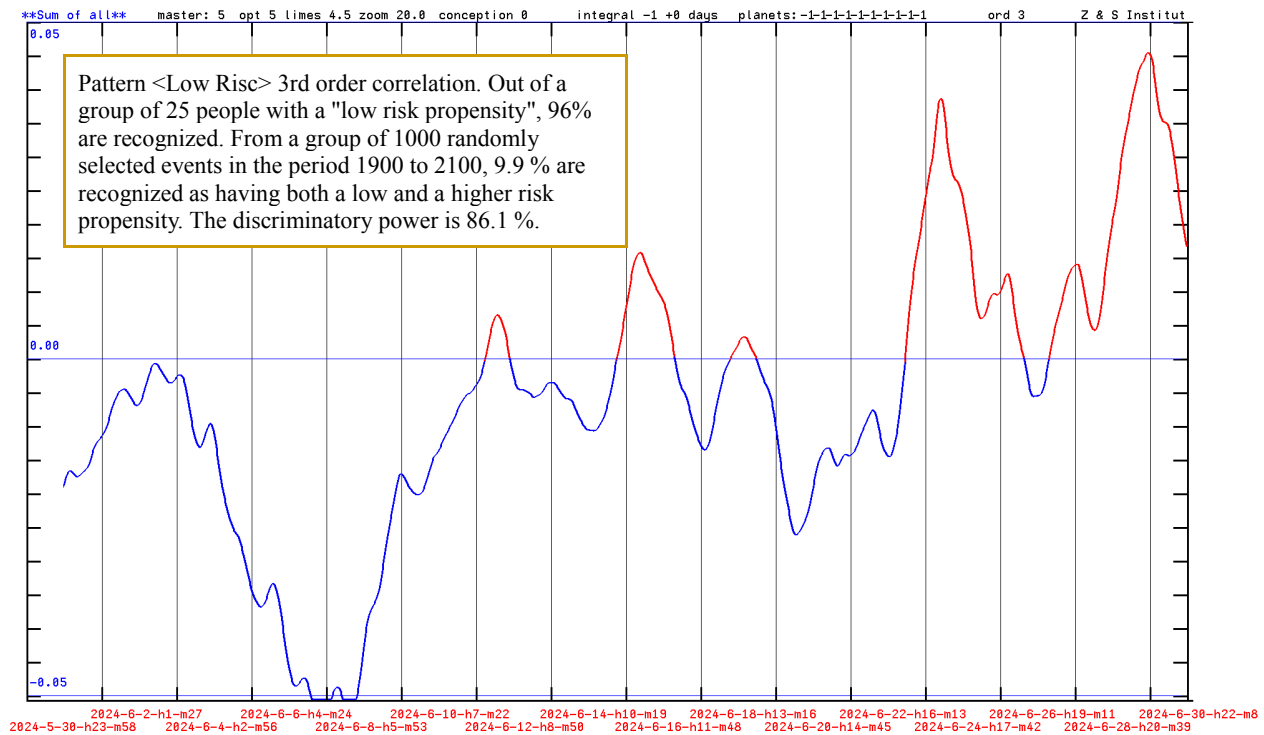

Fig. 7: The probability for the characteristic "low risk appetite/strong need for harmony" when a person is born in June 2024. If the curve is above the center line, then this time falls into the pattern for a "low risk appetite/strong need for harmony"

Even these few statistically verified studies indicate that there is still a large field for further research. To this end, groups of people with the same character traits must be examined. If such groups show significant deviations from the continuum (average), patterns can be created for forecasting.

**To interested readers:** If you know of any such groups of people with special, statistically verified character traits, you can send them to us for significance testing. If it is a characteristic that deviates from the average, we can create a sample.

## Artificial intelligence in the forecasting of earthquakes in June 2024

The fluctuating planetary gravitational field influences not only the activities of the sun, but also those on earth. A special correlation function describes the harmonics of these fluctuations. Groups of earthquakes form oscillation patterns that differ significantly from randomly selected control groups. These patterns are suitable as an element of an AI for assessing the probability of earthquakes.

### Pattern A

Group of the 41 strongest earthquakes of the last century (1900-2000)

*The pattern used here finds 100% of the list of the 41 strongest earthquakes. However, 25.8 % of the 1000 events are also identified as earthquakes from a randomly selected list. The discriminatory power (difference) to the continuum is 74.2 .*

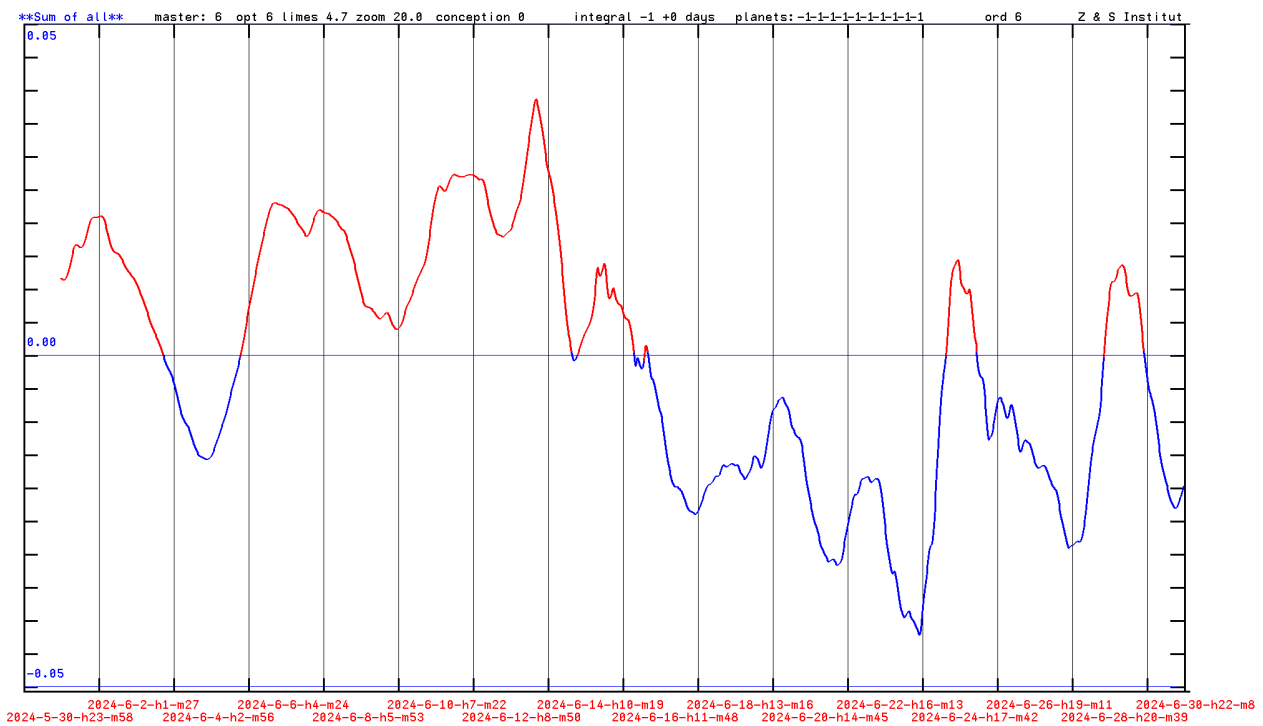

Fig. 8: Curve of pattern A for the period 2024-06. Above the center line, the probability of a pattern A earthquake is greater.

### Pattern B

A list of 513 earthquakes (Earthquakes of magnitude 6.5 or greater or ones that caused fatalities, injuries or substantial damage. BRK--Berkeley. PAS--Pasadena. ) in the period 1997-01-05 to 2002-06-18].

82 % of the group of 513 earthquakes were recognized as earthquakes. From a randomly selected comparison group of 1000 events, 27% were identified as earthquakes. The comparison group of 1000 events was randomly selected in a period from 1900 to 2100.

Fig. 9: Curve of pattern B. 513 earthquakes for the period 2024-06. Above the center line, the probability of a pattern A earthquake is greater.

**Important:** This does not rule out major earthquakes.

## Planning the birth date of a baby in the month of June

Planning the birth of a child depends on many circumstances and conditions. The social circumstances of the partners, the time available and also the physical possibilities are significant influencing factors. Planning is easier if only artificial insemination is possible.

The patterns currently being developed from the harmonics of the planetary oscillators (major planets) make it possible to specify time windows in which the change in the probability of higher (or lower) intelligence or lower risk behavior of the newborn can be seen.

The time windows are calculated for a month in which the day of conception (conceptio) takes place. The duration of a pregnancy from the day of conception is given as 268 days. This is a statistical mean value that has a range of fluctuation.

The following curves show the time quality for the various patterns for 268 days later than June 2024, i.e. approx. 8 months + 24 days.

### Pattern <High IQ>

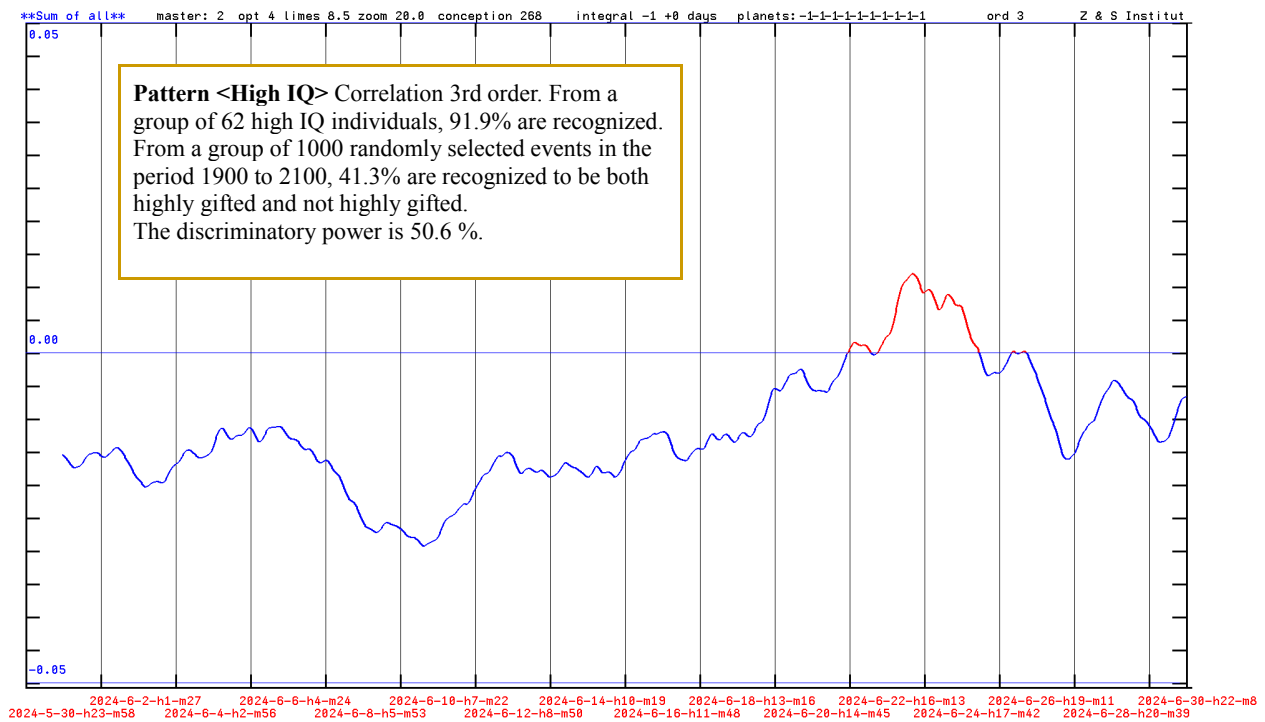

Fig. 10: The probability of a higher IQ at conception of an intended pregnancy in June 2024. If the curve is above the center line (red part of the curve), then this time falls into the "High IQ" pattern for high achievers. The birth takes place 8 months and 24 days later than June 2024.

### Pattern <Low IQ>

Fig. 11: The probability of a lower IQ at conception of an intended pregnancy in June 2024. If the curve is above the center line (red part of the curve), then this time falls into the "Low IQ" pattern. The birth is 8 months and 24 days later than June 2024).

### Pattern <Low Risc>

Fig. 12: The probability of a lower risk of conceiving an intended pregnancy in June 2024. If the curve is above the center line (red part of the curve), then this time falls into the "low risk" pattern. The birth takes place 8 months and 24 days later than June 2024.

Please note: The changes in the probability for a higher IQ, for a lower IQ and for a lower risk probability of the child are relative to the genetic disposition and are no guarantee for a really high intelligence or a low risk propensity of a child.

### Individual biographical rhythms 48 to 60 years

(Continued from issue 2024-05)

The rhythm curves previously published in this magazine always referred to an average orbital speed of the planets. The current orbital speed and the retrograde motion of the planets were not taken into account. Therefore, individual biographical rhythms June deviate from these statistical averages. (see edition 2024-02)

Are there harmonic and disharmonic periods that apply to all generations? For this purpose, 1000 years (1500 to 2500) were calculated with an increment of 3.6525 days. The calculated curves were superimposed. The result is shown in Figure 15.

The graph shows the areas that are likely to be harmonious (red) or disharmonious (blue). If there are only harmonious red areas in a life stage, the probability is very high that all individuals of a generation are harmonious in these periods.

**Fig. 13** Mean biographical rhythms from 48. to age of 60.

The rhythm curves previously published in this magazine always referred to an average orbital speed of the planets. The current orbital speed and the retrograde motion of the planets were not taken into account. Therefore, individual biographical rhythms June deviate from these statistical averages. (see edition 2024-02)

Are there harmonic and disharmonic periods that apply to all generations? For this purpose, 1000 years (1500 to 2500) were calculated with an increment of 3.6525 days. The calculated curves were superimposed. The result is shown in Figure 14.

The graph shows the areas that are likely to be harmonious (red) or disharmonious (blue). If there are only harmonious red areas in a life stage, the probability is very high that all individuals of a generation are harmonious in these periods.

Fig. 14 Biographical rhythms from the 24th to the 36th year of life for the period from 1500 to 2500.

After surviving a midlife crisis, the period from 48 to 60 is a relatively harmonious and stable phase of life for all generations. This relatively harmonious phase, beginning at the age of 52 and ending at the age of 58, is also known as the "best years" phase. Individually, however, this is not always true.

## **Fluctuations of the planetary gravitational field and nonlinear interactions with matter.**

### *From the preface to the book*

The hypothesis presented in this book arose by chance. My experience in creating a mathematical model for calculating partially-coherent light waves through optical systems, applied to the planetary system, led to an algorithm that can be interpreted as a nonlinear interaction of microgravity with matter. This does not describe causalities but only correlations of a probabilistic nature. A correlation function is developed that can describe changes in the probability of stable and unstable states in matter.

With the found correlation function the triggering of earthquakes was investigated as the first.

...

Previous studies related to the triggering of earthquakes do not take into account the interactions of the gravitation of the planets.

The studies of groups of earthquakes showed significant deviations from the control groups and confirmed the assumption that the harmonics of the planetary gravitational field have an influence on the triggering of earthquakes. Surprisingly, it was not only the harmonics of the Sun and Moon. These results suggested that it might be possible to use these harmonics to predict earthquakes as well, which was also confirmed that the correlation function found could be used to predict changes in the probability of earthquakes.

It was further suggested that the fluctuations of the planetary gravitational field could also have a stabilizing or destabilizing influence on other processes of evolution on Earth. The correlation function was applied to the structure formation of human intelligence and the stability of mental processes. Again, significant results were found in the statistical studies.

The results so far suggest that the correlation function June be suitable for describing influences on further processes of human evolution. The method can also be applied as an element of an artificial intelligence, ...

Michael E. Nitsche

In this book, the structure formation of human intelligence, the stability of mental processes, the developmental psychology of humans, social events and crises, but also the triggering of earthquakes are investigated on the basis of the planetary gravitational field. The fluctuating planetary gravitational field forms frequency patterns that can be used for predictions in an artificial intelligence.

Michael E. Nitsche (Autor)

### ATLANTIS - 3045

*An age lasting a thousand years comes to an end. It will later be called the Dark or Leaden Age. In secret, underground, in the caves and catacombs, something has developed that feels the power to beauty, harmony and eternal youth. Perhaps this will develop into an Atlantean, a Golden Age. Do we still speak of man, mankind even? No! It has reached the end of its evolution. Greed, laziness and fear, these driving forces of human civilization have reached the end point. Stupidly naive moral conceptions of a human herd and extremely decadent ways of life of an elite left only one exit open: Suicide - apocalypse. The brutal competition of the male aggression for the offspring and the female greed for the greatest male aggression for the own offspring, originating from the animal kingdom, could not be changed, for it ideologies and religions were insurmountable obstacles. Parts of mankind survived through artificial wombs and virgin birth. The male part no longer existed. A mostly peaceful world in harmony with nature emerged, a decaying world in which what was once technology became increasingly rare. A small pool of male children was raised for safety in a secluded reservation kept strictly secret from the rest of the population. With the onset of puberty, these specimens were transformed into girls. But the male element had not yet been completely defeated, when it happened that something succeeded which nobody had thought possible. An ancient dream of mankind was about to become reality. The dream of eternal youth. In a research institute that was working on the adaptation and optimization of virginity production, there existed a small research group that was allowed to conduct genetic experiments on the remaining male gene pool. There they succeeded in designing a male specimen of a new human being, with the potential of eternal life. But these specimens of a new man would allow very little differentiation; they were like identical twins and loved each other as such. Would it become a blessing or a curse to humanity? It was decided to destroy this small male gene pool immediately. But time had its own plans. On an island in the Atlantic Ocean, something existed that was created before the apocalypse and was supposed to allow high technology to survive. It survived without humans, although it was made for them. After it had a thousand years to find a way, it began to stir. The world was changing and had its own goals, beyond humans.*

Publications in peer reviewed journals on this theory (with a German translation) can be found here: <http://www.planetare-korrelation.eu/Published%20articles.htm>

## Guest posts

Do you have individuals, groups of individuals, special events or groups of events?

We will review you and, if suitable, conduct research and publish the results with you in our journal or in an international peer reviewed journal.

## Your own research?

If you intend to conduct your own research independently of us, you can purchase the astro-basis program (manual here: <http://www.planetare-korrelation.eu/program-astro-2.htm> ). With this program all research results were obtained, which were published in the international journals

*Earth & Environmental Science Research & Reviews;*

*International Journal of Clinical & Medical Informatics;*

*Journal of Robotics and Automation Research;*

*Journal of High Energy Physics, Gravitation and Cosmology;*

were published.

For further requirements you can also purchase the astro-extended program (manual here: <http://www.planetare-korrelation.eu/program-astro-extended.htm> ). This program can among other things also carry out resonance examinations (transits) statistically secured.

**Contact us, we will advise you!**

## Contract research for your personal questions

**Do you need quality time for personal appointments, births, or groups of people?**

We calculate the time quality matrices for you with statistical tests for significance.

For one appointment we will charge you 80,-€, for groups up to 30 events or persons 120,-€.

## Sponsoring

**Would you like to support our research financially?**

Please get in touch with us. Your support can also refer to individual studies, for example. An internationally published research article can then include the addendum: "This research was conducted by ..... *Your name or company*.... sponsored. In addition, your name or company can - if you wish - be published on our homepage with a link.

**Contact us, we will advise you!**
